

Schemi di collegamento per Mototamburi 80i, 113i, 138i, 165i

Con cavo

TC = Contatto termico
BR = Freno elettromagnetico (opzione)

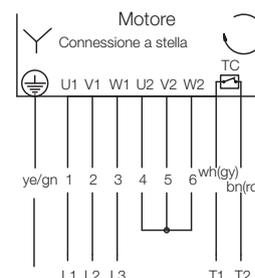

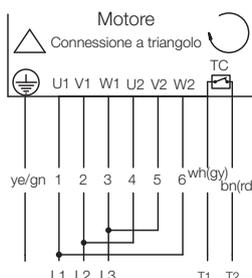

I fili per il contatto termico possono essere di colore bianco e marrone o grigio e rosso.

Tipologie di connessione:
 Δ = triangolo tensione bassa
 Υ = stella tensione alta

Legenda:

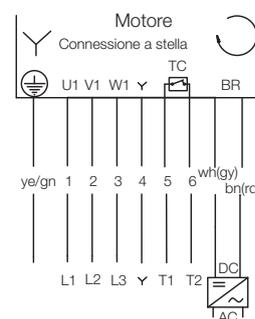

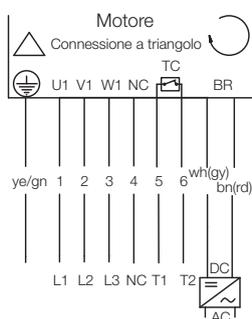

ye/gn = giallo/verde
 bn = marrone
 wh = bianco
 gy = grigio
 rd = rosso
 () = variante colori
 Υ = centro stella

Trifase per collegamento stella/triangolo

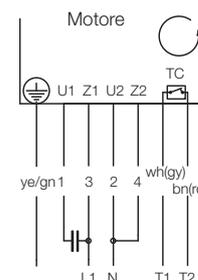

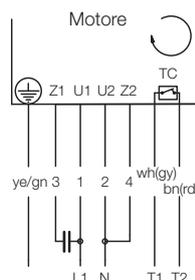

Trifase per collegamento stella/triangolo opzioni con freno

NC = non collegato

Monofase

Avvolgimento Principale =
Avvolgimento Ausiliario

Schemi di collegamento per Mototamburi 80i, 113i, 138i, 165i

Con cavo

TC = Contatto termico
BR = Freno elettromagnetico (opzione)

I fili per il contatto termico possono essere di colore bianco e marrone o grigio e rosso.

Legenda:

ye/gn = giallo/verde

bn = marrone

wh = bianco

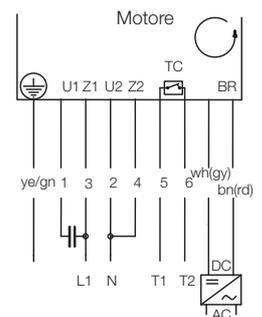

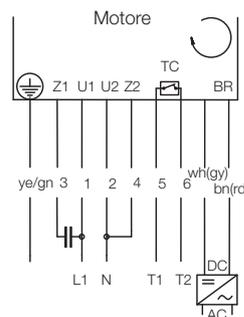

gy = grigio

rd = rosso

() = variante colori

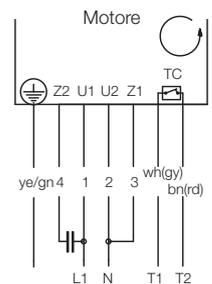

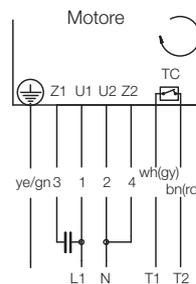

Monofase Opzione con freno

Avvolgimento Principale = Avvolgimento Ausiliario

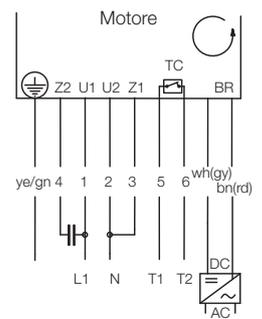

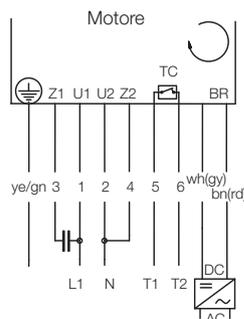

Monofase

Avvolgimento Principale < Avvolgimento Ausiliario

Monofase Opzione con freno

Avvolgimento Principale < Avvolgimento Ausiliario

Schemi di collegamento per Mototamburi 80i, 113i, 138i, 165i

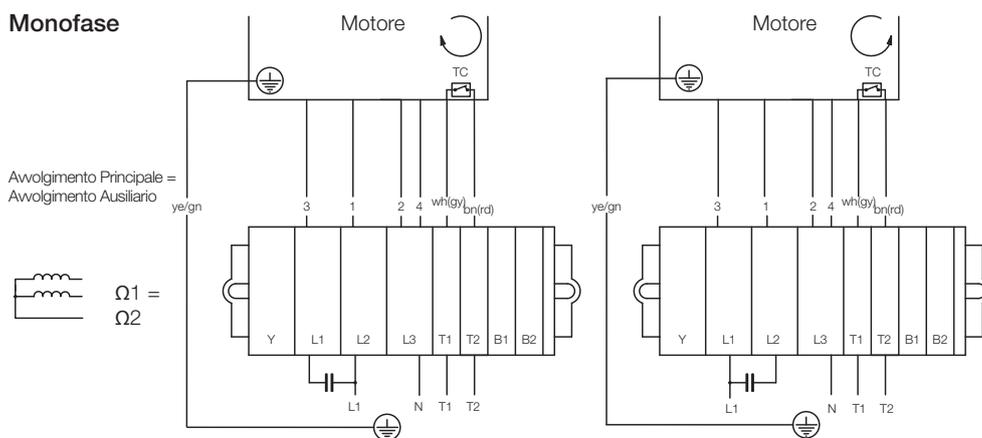

Morsettiera con morsetti Wago

TC = Contatto termico
BR = Freno elettromagnetico (opzione)

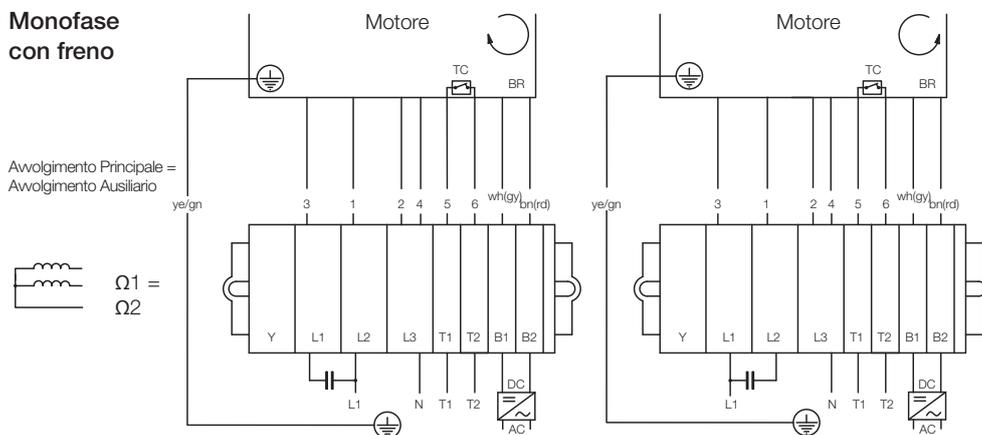

Tipologie di connessione:
Δ = triangolo tensione bassa
Y = stella tensione alta

Legenda:
ye/gn = giallo/verde
bn = marrone
wh = bianco
gy = grigio
rd = rosso
() = variante colori

Monofase

Monofase con freno

Schemi di collegamento per Mototamburi 80i, 113i, 138i, 165i

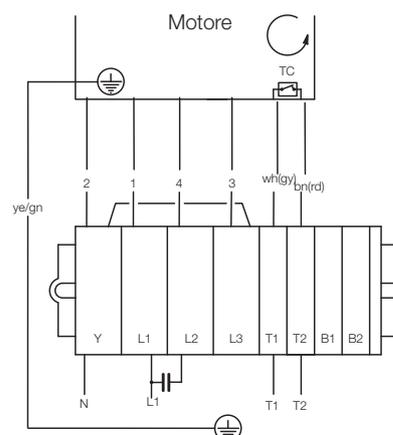

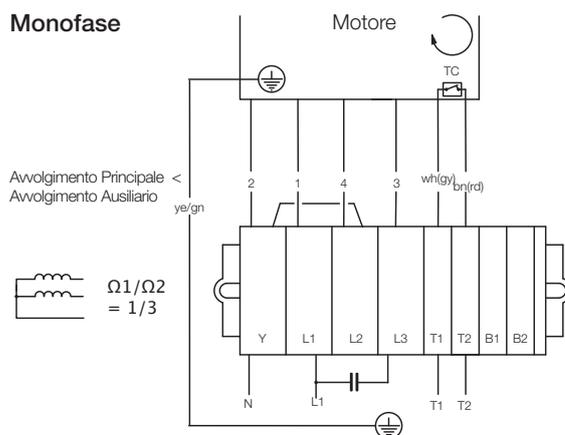

Morsettiera con morsetti Wago

TC = Contatto termico
BR = Freno elettromagnetico (opzione)

Tipologie di connessione:
Δ = triangolo tensione bassa
Y = stella tensione alta

Legenda:
ye/gn = giallo/verde
bn = marrone
