1 Introduction

Purpose of this manual

The purpose of this manual is to provide necessary information on spare parts and accessories order.

Disclaimer

Always use genuine Flygt parts. The use of other spare parts or accessories can invalidate any claims for warranty or compensation. Xylem does not take any responsibility for damages that are caused by the use of non-original parts. For more information, contact your local sales and service representative.

Data for ordering spare parts

The following information is needed for spare part orders:

- Serial number of the product
- Part number
- Quantity of bulk material, see * in tables

1.1 Specially approved products

Qualification of personnel

Only Xylem or Xylem-authorized service personnel may undertake repair work on specially approved products.

Dimensional accuracy inspection

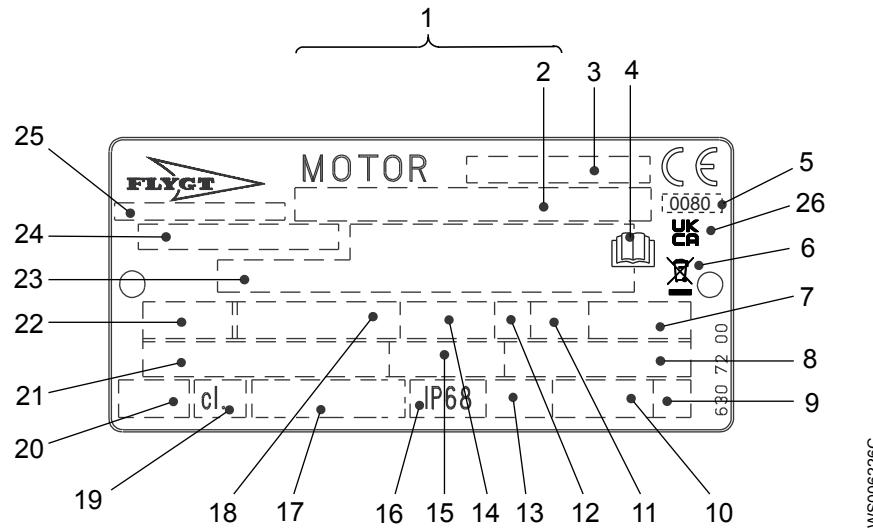

Spare parts marked with (Ex) after the part number are subject to dimensional accuracy inspection when used in specially approved products.

2 Product Description

2.1 The data plates

The data plates include key product specifications.

Drive unit

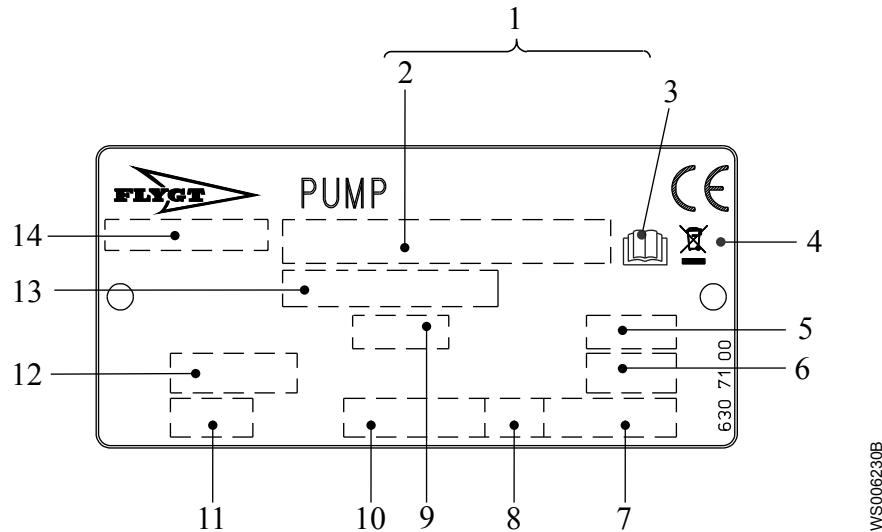

1. Serial number
2. Product code and number
3. Motor denomination
4. Read installation manual
5. Notified body, only for EN-approved Ex products
6. WEEE-Directive symbol
7. Maximum ambient temperature
8. Power factor
9. Locked rotor code letter
10. Product weight
11. Duty factor
12. Duty class
13. Maximum submergence
14. Rated speed
15. Rated current
16. Degree of protection
17. International standard
18. Rated shaft power
19. Thermal class
20. Thermal protection
21. Rated voltage
22. Phase; Type of current; Frequency
23. Additional information
24. Product number
25. Country of origin
26. UKCA marking

Hydraulic unit

1. Serial number
2. Product code and number
3. Read installation manual
4. WEEE-Directive symbol
5. Impeller diameter
6. Propeller blade angle
7. Product weight
8. Direction of rotation: L=left, R=right
9. Impeller or Propeller code
10. Rated speed
11. Pressure class
12. Column diameter or Inlet and outlet diameter
13. Product number
14. Country of origin

2.3 Product denomination

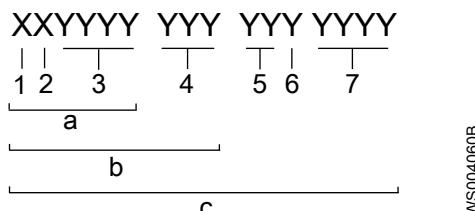

Reading instruction

In this section, code characters are illustrated accordingly:

X = letter

Y = digit

The different types of codes are marked up with a, b, and c. Code parameters are marked up with numbers.

5.1 Major parts

Sensors are not included. For sensor part numbers, see [Monitoring and Sensors](#) on page 132.

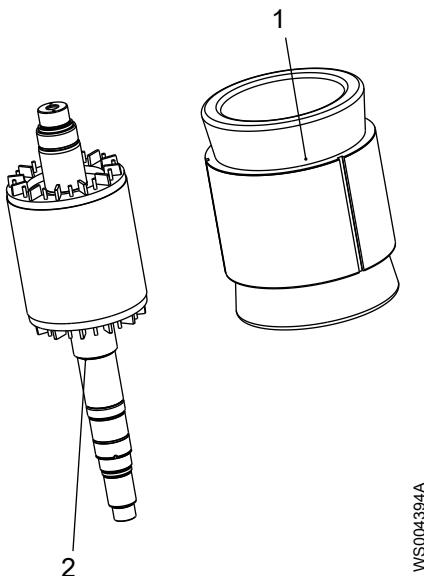

For stator part numbers, the last two digits are shown as XX. These depend on the rated voltage. See the data plate.

17.2.2.3 Current transformer: Units equipped with MAS 801

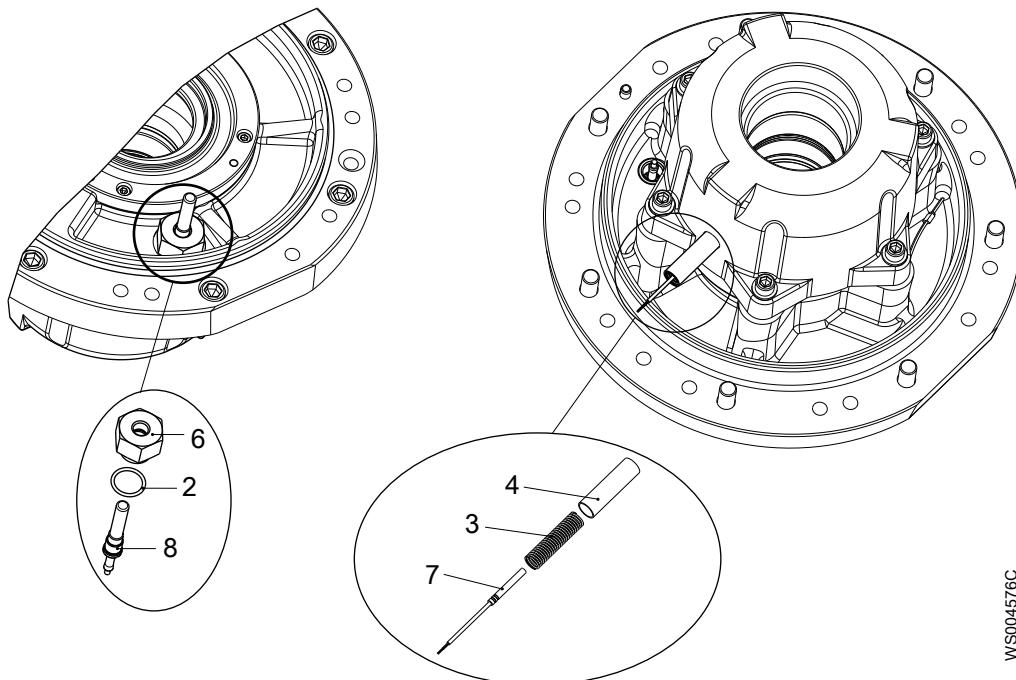

If the current transformer was installed at the factory, then it is located in the stator house. The current transformer is installed on one stator lead, as shown in the following figure.

Item	Denomination	Part No.	Qty.
1	Current transformer	82 62 75	1
2	Cable tie	83 45 60	2

If the drive unit has been retrofitted with MAS 801, then the current transformer is in the connection house.

17.2.5 Stator winding temperature

Item	Denomination	Part No.	Qty.
1	Thermistor	85 06 37 is 3 thermistors in series.	1
2	Thermal contact	85 06 38 is 3 thermal contacts in series.	1
3	Thermal detectors	Pt100	1 or 3

The drive unit is equipped with Pt100 thermal detectors, and one of the following:

- Thermistors
- Thermal contacts

Contact your local sales representative with the serial number, to find out which temperature sensors are in the drive unit.
