

## To All Avio Suppliers

March 10<sup>th</sup>, 2022

Ref. Prot. N. ACQ/0110/22

### Status of supplies - Communication from AVIO

Dear Partner,

the current Geopolitical situation, affected by the conflict in Ukraine, put all of us in unprecedented and unexpected crisis in Europe.

As you can imagine also AVIO is evaluating in all directions the influence of such conflict on the business with particular attention to the supply chain and its possible implications associated.

For this reason, you are kindly requested to provide AVIO with a statement (answering to [acquisti.spazio@avio.com](mailto:acquisti.spazio@avio.com)), within 2 working days from the receiving of this letter, highlighting:

- If the Product/Equipment you provide to AVIO embeds Russian/Ukraine components, also at Tier II suppliers level.
- If within your supply chain, you have identified any sanctioned parties and how you are complying with the applicable regulations;
- In case of positive answer, which is the implication in terms of availability of material and deliveries, and which measures you are putting in place to mitigate the impact.

In addition to that, you are requested to alert AVIO immediately to the address [ciso@avio.com](mailto:ciso@avio.com), if you are confronted with any cyber incident or attack which could have a direct or indirect impact on AVIO networks, IT system, or general operations in order to allow AVIO to take all adequate countermeasures.

Kind Regards,

Sergio Colabucci

AVIO S.P.A.
