

Agreement

In Connection with the Integration of Customer Content on the "Schaeffler Truck Roadshow" Website

Schaeffler Technologies AG & Co. KG (hereinafter referred to as "Schaeffler") will present its Industry 4.0 Service Solutions at a truck roadshow starting in the mid of 2022. Information about the roadshow will be made available via the website with the URL www.roll-with-Schaeffler.com (hereinafter referred to as "Roadshow Website"). The responsible operator of the Roadshow Website is Schaeffler.

In consultation with the Customer, the truck will also stop at the Customer's premises on dates agreed between the Customer and Schaeffler (hereinafter referred to as "Event Date"). In this case, the Customer has the option of integrating its own text and image material as well as its own logo / trademark (text and image material as well as logo / trademark hereinafter referred to as "Customer Content") in a customer-specific subsection of the Roadshow Website via admin access to the backend of the Roadshow Website in order to inform its own customers (hereinafter referred to as "End Customers") about the Event Date. End Customers can register for the Event Date in the customer-specific subsection of the Schaeffler website.

In this context, Schaeffler and PLEASE INSERT Customer, Address, Country (hereinafter referred to as "Customer") agree on the following:

1. **Granting of Rights:** By integrating the Customer Content on the Roadshow Website, the Customer grants to Schaeffler the free-of-charge, non-exclusive, revocable, time-limited and territory-unrestricted right to publish, reproduce, adapt (e.g. cut, layout, retouching) and make available to the public the Customer Content on the Roadshow Website. An explicit indication that the Customer Content originates from the Customer is not made on the Roadshow Website.
2. **Exemption:** For the Customer Content integrated on the Roadshow Website, solely the Customer shall be responsible. The Customer warrants that the integration and/or use of the Customer Content on the Roadshow Website by Schaeffler does not violate applicable law and/or infringe the rights of third parties.

The Customer undertakes to indemnify and hold Schaeffler harmless upon first request against all claims and demands, irrespective of the legal basis, type and amount, asserted by third parties against Schaeffler as a result of the integration and/or use of the Customer Content on the Roadshow Website. This indemnification obligation shall also include costs and expenses (e.g. costs of legal defense) incurred by Schaeffler in this context. If claims and demands are asserted against Schaeffler in accordance with this Section, Schaeffler shall notify the Customer in writing without delay.

3. **Right to Block/Remove Schaeffler:** Schaeffler shall be entitled at any time to remove the Customer Content from the Roadshow Website in whole or in part, temporarily or permanently, if third parties take action against Schaeffler in accordance with Section 2 and/or if, at Schaeffler's discretion, an infringement of rights exists, is imminent or possible as a result of the use on the Roadshow Website.

Claims of the Customer against Schaeffler are excluded in this context.

Schaeffler shall be entitled to remove the Customer Content from the Roadshow Website at its own discretion after the event has taken place, but no earlier than 14 calendar days after the Event Date.

4. **Final Provisions:** Amendments and supplements to this Agreement must be made in writing to be effective. This shall also apply to the waiver of the written form requirement itself.

The law of the Federal Republic of Germany shall apply.

Should any provision of this Agreement be or become invalid, the remaining provisions shall not be affected thereby. In such a case, the Parties shall replace the invalid provision with a provision that comes as close as possible to the economic purpose of the original invalid provision. The same shall apply in the event of a contractual gap.
