Tandem Brush Holder, Type "TNC1", "TNC2", "TNC3" and "TNC4" (inclination 8°).....	17
Tandem Brush Holder, Type "TRG2"	18
Multiple Flange Brush Holder	19
Multiple Flange Brush Holder (reinforced resin).....	21
Double Clamping Brush Holder, Type "DRD"	23
Leg Brush Holder with Fixed Brushes	26
Double Leg Brush Holder with Simply Supported Brushes	29
Tubular Brush Holder	30
Power Feeds (Ignition Plug Holder)	31
Plug-in Brush Holder and Holder Support	32
Plug-in Element and Plug-in Element Support	34
Multiple Plug-in Element and Support	35
Questionnaire on Carbon Brushes and Brush Holders	36
Contact Information.....	37

holder bodies and accessories manufactured according to the current DIN standard
P [cN/cm²] - average specific brush pressure
t, a, r - tolerance for brush guidance according to DIN 43 000/2 E10 (IEC 136)
Connection dimensions according to DIN 43 040
All dimensions in mm

Designs and Variants

Single Brush Holders

For commutator machinery;
wide variety of designs;
various pressure systems,
made of cast or sheet brass

Multiple Brush Holders

For commutator machinery;
more compact structural
form than with individual
holders

Tandem Brush Holders

For high performance
motors with heavy loads;
made by die casting or sand
casting;
every brush with inde-
pendent pressure
mechanism

**Multiple Flange
Brush Holders**

Single/multiple design;
made of die cast or sheet
brass; various pressure
elements possible;
wear-levelling

**Double Clamping
Brush Holders**

For slip ring machinery;
made of die cast, variably
adjustable for different slip
ring diameters;
with/without pressure
adjustment;
with/without phase
connection

Leg Brush Holders

For slip ring machinery;
designed as single or
double leg brush holders,
with one/two piece brass
clamps, legs of sheet brass

Designs and Variants

Tubular Brush Holders

For small motors. Guides made from brass profile or sheet brass, insulation made from hard paper or reinforced resin, plug connection, solder slot or screw connection

Power Feeds

For clutch couplings;
bronze brushes for dry running;
fibre brushes for wet running;
oil-tight mounting

Plug-in Brush Holders / Plug-in Elements

For turbo generators;
safe brush change during operation;
simple brush wear checking;
plug-in elements for excitors,
single/multiple designs

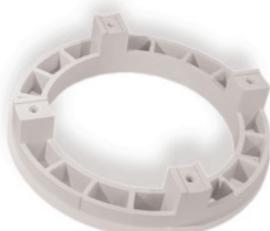

Accessories

Clamps for securing holders

Securing bolts with insulated hard paper or remoulded paper

Support rings

Stepping pieces and shims

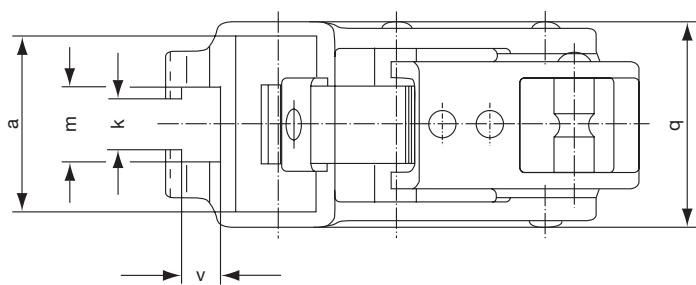

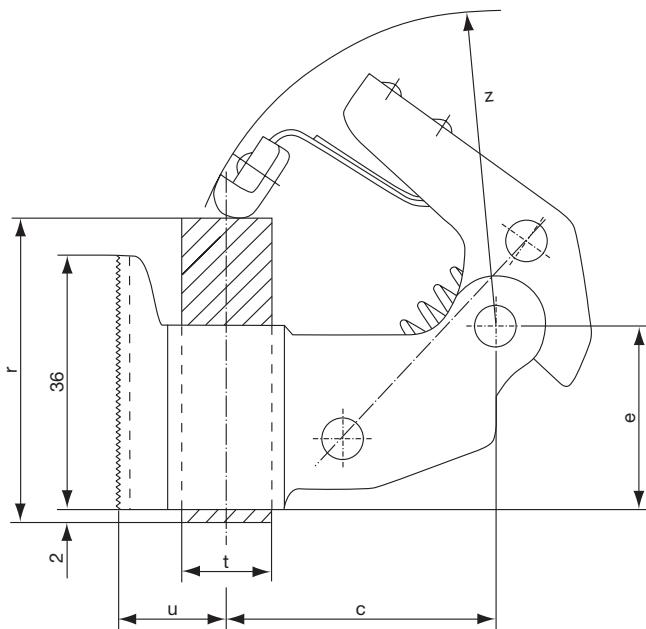

Clamps, securing bolts, support rings, stepping pieces and shims or similar on request and according to customer's wishes

As an original equipment manufacturer since the mid-1970s we continue to offer spare parts for the following OEMs:
SIEMENS, ABB, ASEA, BAUMÜLLER, LEROY SOMER

Single Brush Holder

Type "BRD"

Cast brass holder body, with extension spring, insulated pressure piece

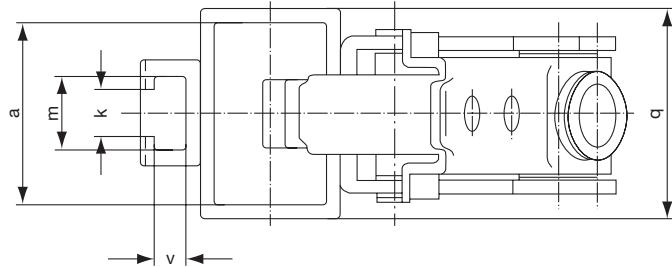

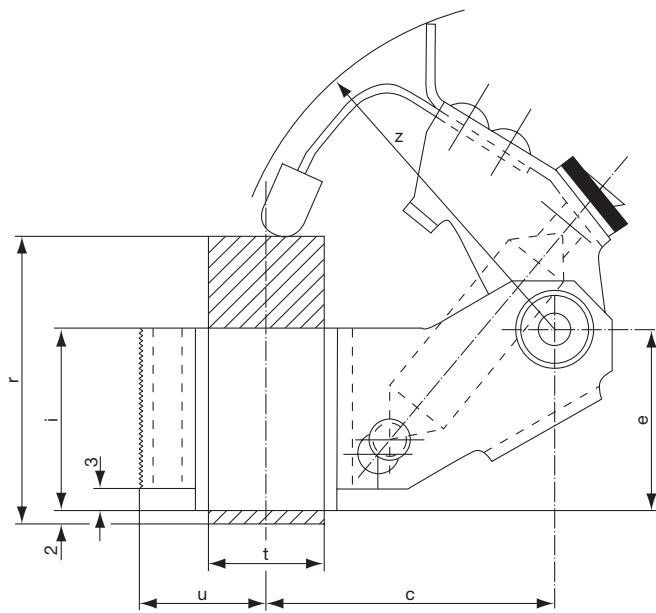

Type	Drawing No.	t	a	r	u	c	e	k	m	q	v	z	P

Single Brush Holder

Type "BRG" and "BRH"

Cast brass holder body, with extension spring, insulated pressure piece

BRG - with current carrying pressure system

BRH - like BRG, but without current-carrying pressure system

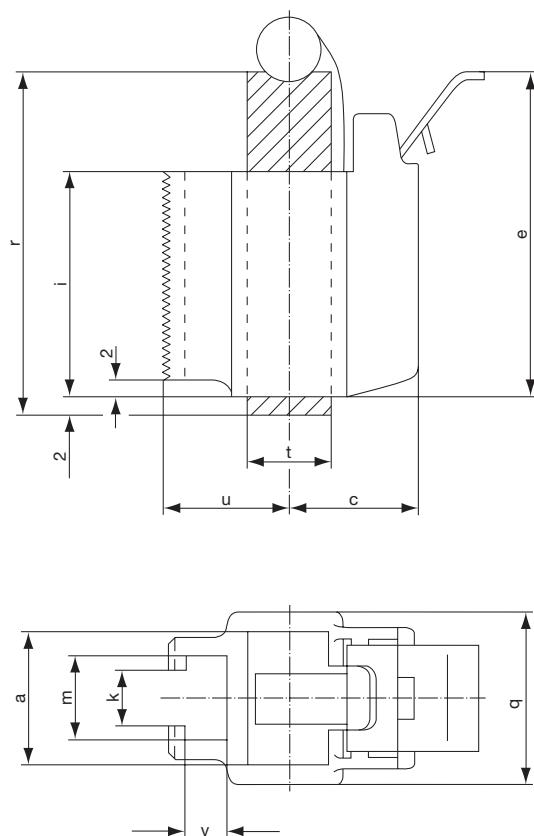

Type	Drawing No.	t	a	r	u	c	e	i	k	m	n	q	v	w	P
BRG1 - 1625	06.04.2177.00	16	25	50	18	62	84	32	6.4	10.2	20	29.5	5	9	180

Double Brush Holder

Type "BRE"

Cast brass holder body, with extension spring, insulated pressure piece

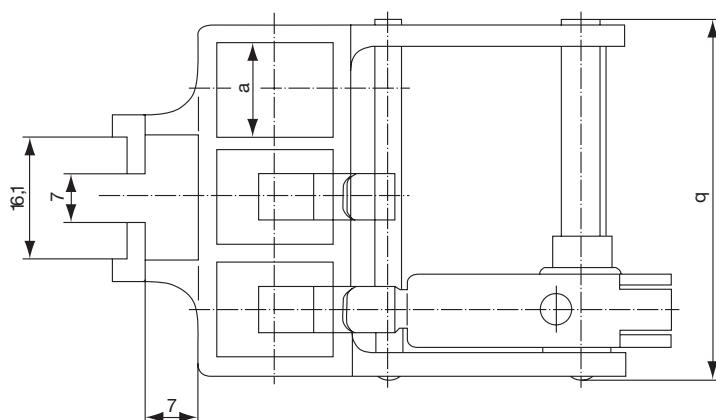

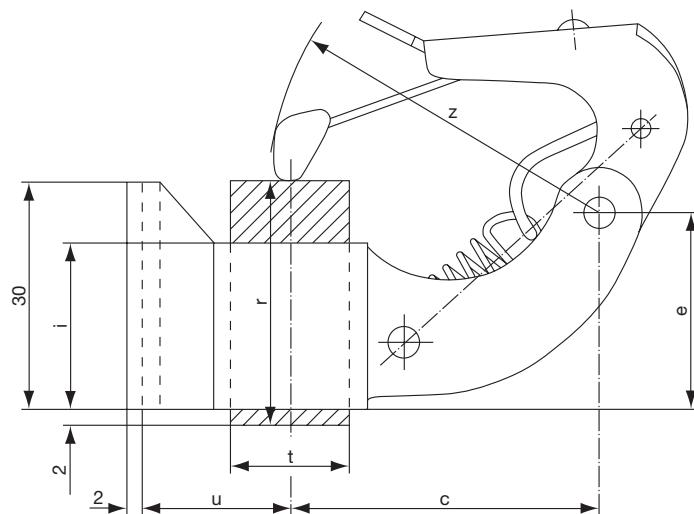

Type	Drawing No.	t	a	r	u	c	e	i	q	z	P
BRE-1012	06.04.2244.00	10	12.5	32	17	38.5	26	22	31.5	43	200
BRE-1612	06.04.2245.00	16	12.5	32	20	41.5	26	22	31.5	45	200
BRE-1216	06.04.2248.00	12.5	16	32	18	45	26	23	38.5	49	200
BRE-2016	06.04.2250.03	20	16	40	22	52	31	25	38.5	55	200
BRE-2516	06.04.2251.10	25	16	50	24.5	55	37	30	38.5	59	200
BRE-1620	06.04.2252.01	16	20	40	20	52	31	25	46.5	55	300

Triple Brush Holder

Type "BRF"

Cast bronze holder body, with extension spring, insulated pressure piece

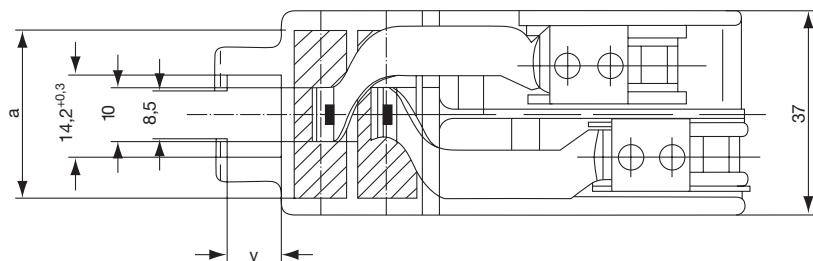

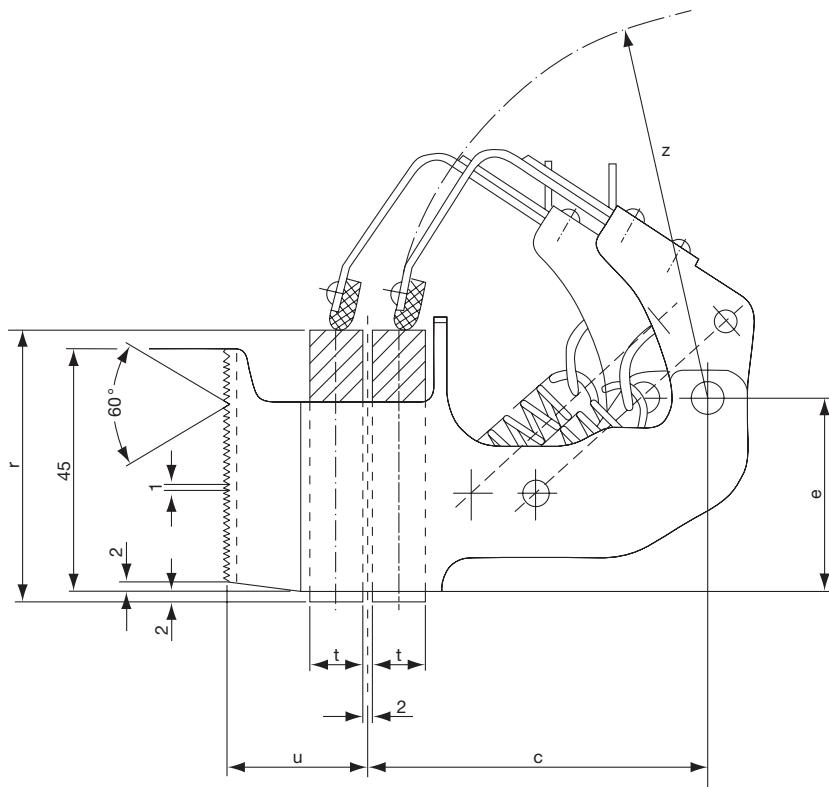

Type	Drawing No.	t	a	r	u	c	e	i	q	z	P
BRF - 1012	06.04.2254.00	10	12.5	32	17	38.5	26	22	46	43	200
BRF - 1612	06.04.2255.00	16	12.5	32	20	41.5	26	22	49	45	200
BRF - 2012	06.04.2256.00	20	12.5	32	22	43.5	26	22	46.5	45	200
BRF - 2516	06.04.2257.00	25	16	50	24.5	55	37	30	59	59	200

Tandem Brush Holder

Type "TRA2"

Cast brass holder body, with extension spring, insulated pressure piece

TRA2 - Sheet metal pressure lever

Type	Drawing No.	t	a	r	u	c	e	v	z	P
TRA2-1032	06.07.0098.02	10	32	50	28	65.7	33	9.5	63	200
TRA2-1232	06.07.0099.02	12.5	32	50	28	70.7	39.7	7	68	200
TRA2-1632	06.07.0100.02	16	32	50	32	89.2	42.5	7.5	86	200
TRA2-2032	06.07.0101.00	20	32	50	36	93.9	40	7.5	86	200

When peripheral speed > 40 m/sec. we recommend raising brush pressure to 250 cN/cm²

Tandem Brush Holder

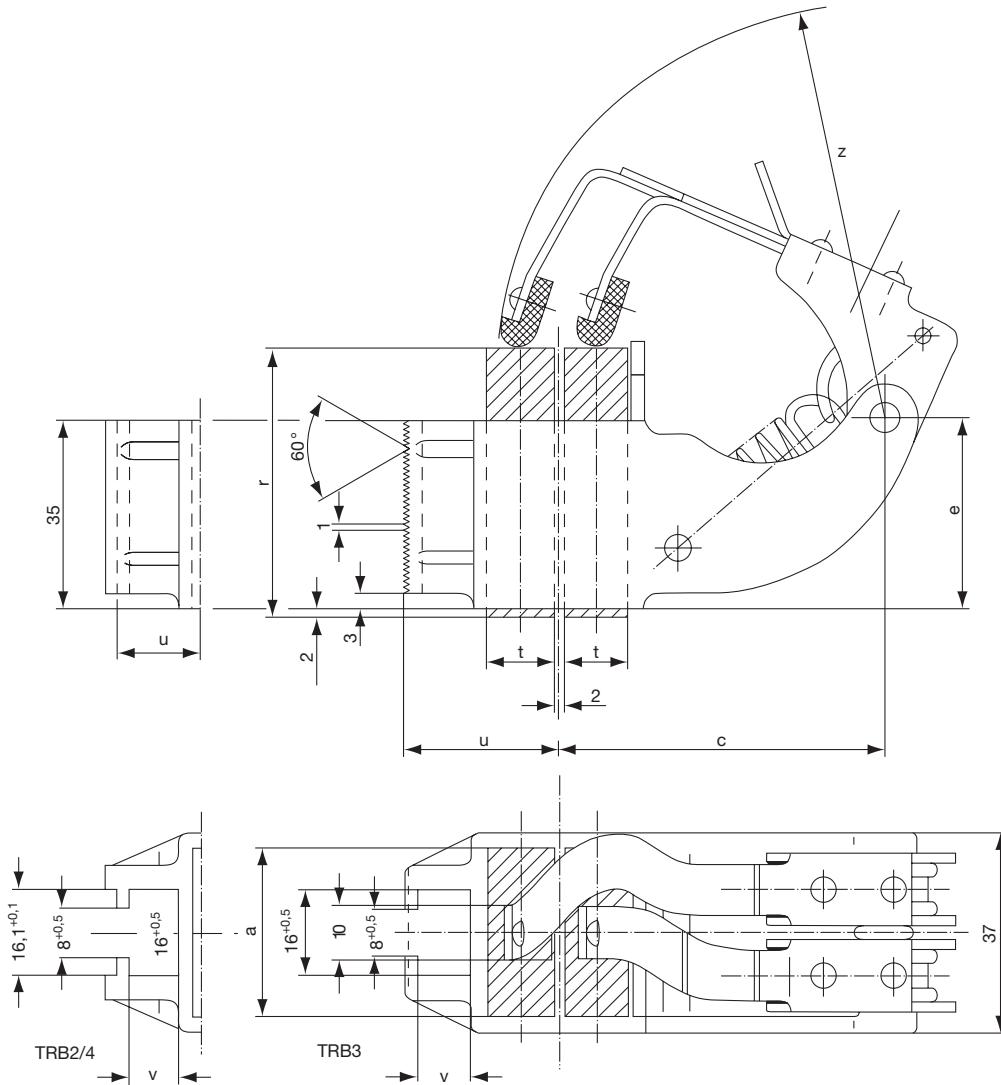

Type "TRB2", "TRB3" and "TRB4"

Cast brass holder body, with extension spring, insulated pressure piece

TRB2 - Cast pressure lever, securing groove

TRB3 - Sheet metal pressure lever, serrations

TRB4 - Sheet metal pressure lever, securing groove

Type	Drawing No.	t	a	r	u	c	e	v	z	P
TRB3 - 0832	06.07.0193.00	8	32	50	28	63.5	35	12	73	350
TRB3 - 1032	06.07.0061.03	10	32	50	28	63.5	35	12	73	200
TRB3 - 1232	06.07.0062.06	12.5	32	50	28	63.5	35	9.5	75	200
TRB3 - 1632	06.07.0063.05	16	32	50	28	63.5	35	6.5	76	200
TRB4 - 1232	06.07.0050.03	12.5	32	50	28	63.5	35	9.5	75	200
TRB4 - 1632	06.07.0051.02	16	32	50	28	63.5	35	6.5	76	200
TRB2 - 2032	06.07.0052.00	20	32	50	32	63.5	35	6.5	80	180

When peripheral speed > 40 m/sec. we recommend raising brush pressure to 250 cN/cm²

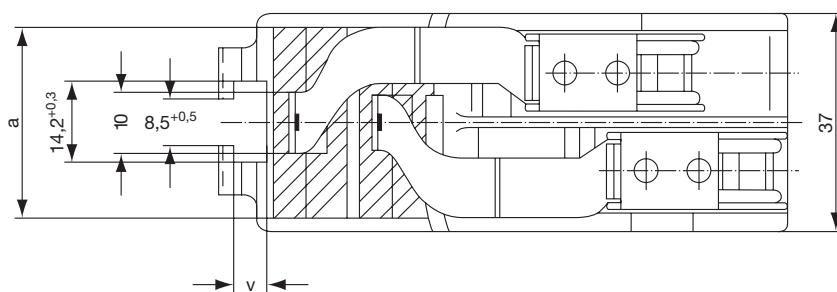

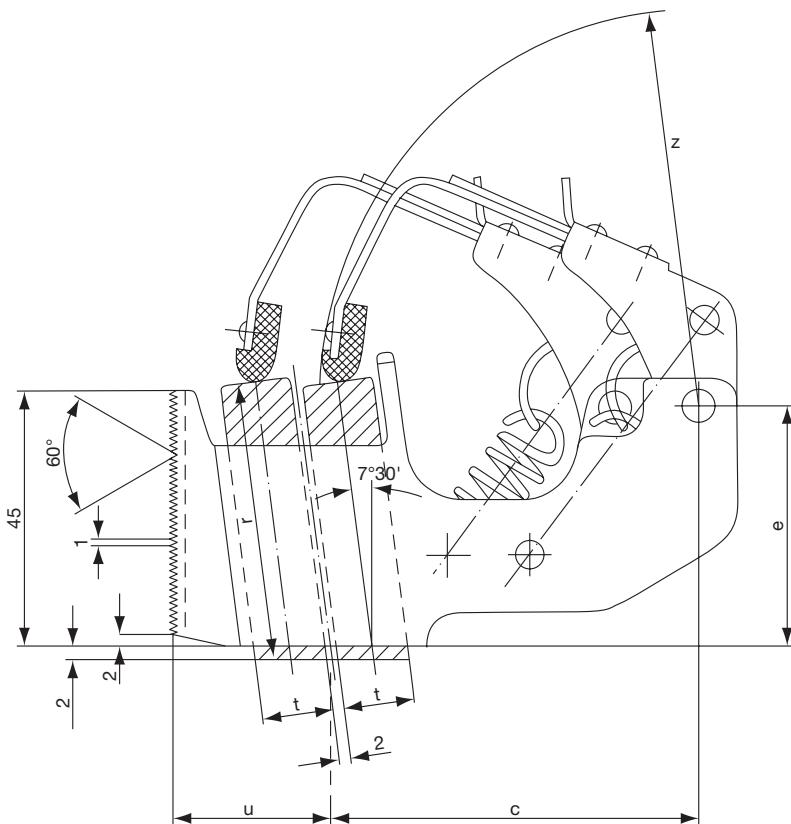

Tandem Brush Holder

Type "TNA" and "TNA2" (inclination 7.5°)

Cast brass holder body, with extension spring, insulated pressure piece

TNA - Cast brass pressure lever

TNA2 - Sheet brass pressure lever

Type	Drawing No.	t	a	r	u	c	e	v	z	P
TNA2-1032	06.07.0102.03	10	32	50	28	60.8	40.7	6	63	200
TNA2-1232	06.07.0103.05	12.5	32	50	28	66.2	42	6	68	200
TNA2-1632	06.07.0104.02	16	32	50	32	85.1	44.7	6	86	200
TNA-2032	06.07.0105.00	20	32	50	36	87	44.9	6	87	200

When peripheral speed > 40 m/sec. we recommend raising brush pressure to 250 cN/cm²

Tandem Brush Holder

Type "TNC1", "TNC2", "TNC3" and "TNC4" (inclination 8°)

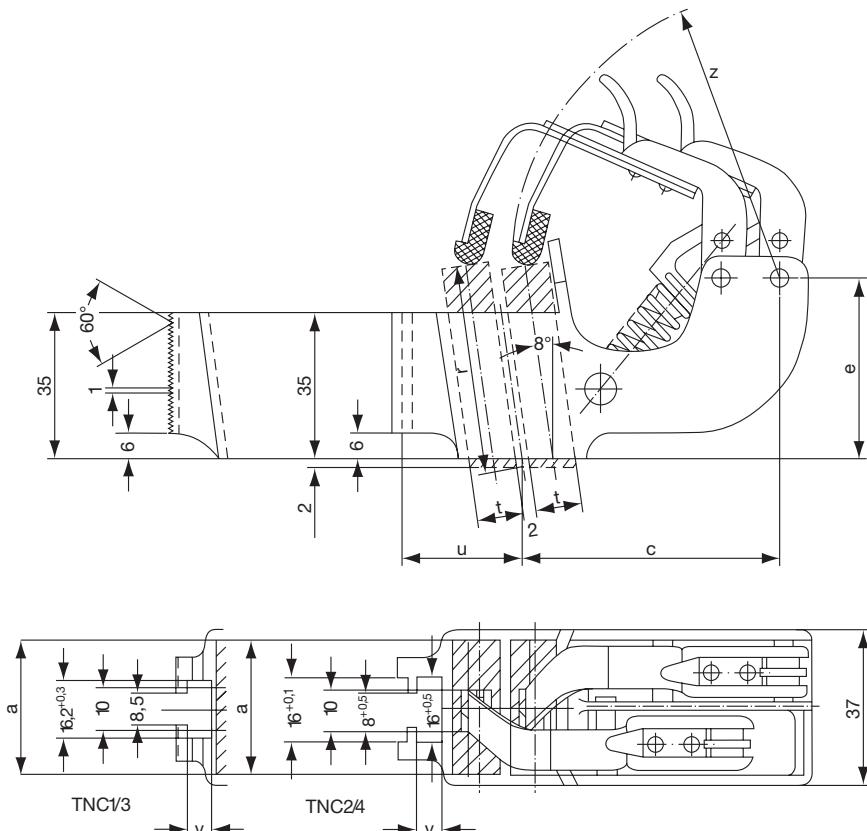

Cast brass holder body, with extension spring, insulated pressure piece

TNC1 - Cast brass pressure lever, serration

TNC2 - Cast brass pressure lever, securing groove

TNC3 - Sheet brass pressure lever, serration

TNC4 - Sheet brass pressure lever

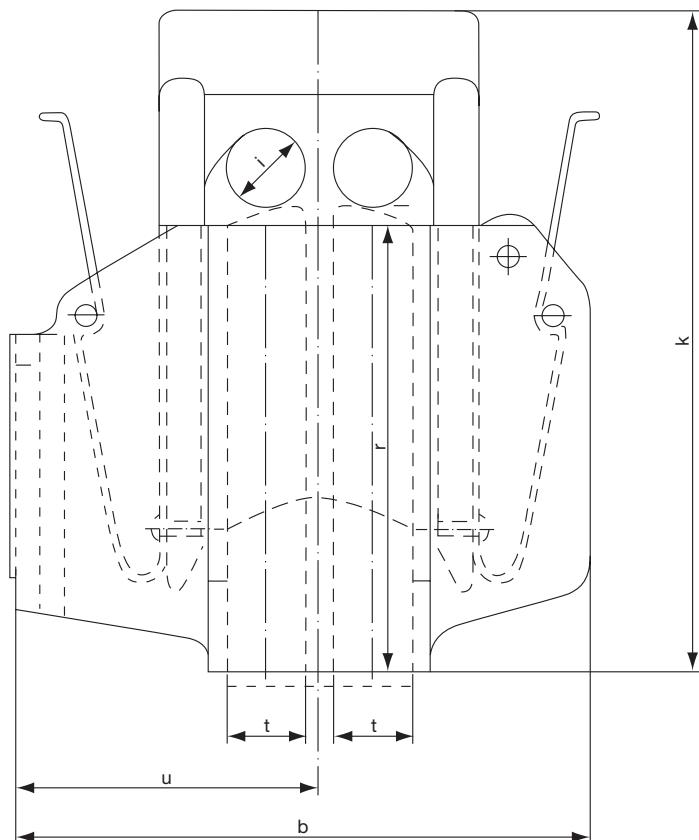

Type	Drawing No.	t	a	r	u	c	e	v	z	p
TNC3 - 1032	06.07.0094.14	10	32	50	27	60.5	41	6.5	63	200
TNC3 - 1232	06.07.0095.12	12.5	32	50	29.5	65.5	42.7	6.5	68	200
TNC3 - 1632	06.07.0096.14	16	32	50	32	84.7	45.3	6.5	86	200
TNC1 - 2032	06.07.0097.06	20	32	50	36	86.7	45.3	6.5	86	200
TNC1 - 2532	06.07.0194.04	25	32	50	42	94	42	6.5	90	260

Questionnaire on Carbon Brushes and Brush Holders

Date: _____

Sheet No.: _____, Pages _____

1. Customer Information (on first page only)

Company: _____

Address: _____

Contact person: _____ Tel.: _____ Fax: _____

2. Plant Information

Manufacturer: _____

Motor type: _____ Motor number: _____

Voltage: _____ V, Current: _____ A, Power: _____ KW, RPM: _____ min-1

No. of poles: _____ No. of brushes per pole: _____

Plant: _____ Motor type: _____

3. Information on Electric Brush

Brush material / marking: _____

Dimensions (mm): T _____ A _____ R _____ - Double

Design fig. No.: _____ (see catalogue)

No. of current connectors: _____, Length R = _____ mm - Tinned - Insulated

Clamp fig. No.: _____ m = mm (see catalogue)

- Sketch/drawing of brush holder is available, No.: _____

4. Information on Brush Holder:

Marking: _____ Marking of fields: _____

Type of brush holder: _____

Spring type: - Clock spring - Extension spring - Pressure spring - Coil spring - Other

Basic dimensions of brush holder (mm): Length: _____, Width: _____, Height: _____

No. of brush holders per pole: _____ Number of guides for brushes: _____

- Sketch/drawing of brush holder is available, No.: _____

5. Please outline other questions separately, e.g. unsatisfactory performance of the brush apparatus, sparking, excessive brush or collector wear, etc.
